SKILLS

- JavaScript, Typescript, Ruby, PHP, Python
- ReactJS, NextJS, NodeJS, ExpressJS, Rails, Laravel, Django
- Git, GitHub, Heroku, AWS, Azure, Terraform, Docker, Jenkins, Vercel
- CI/CD, RESTful APIs, Agile Methodologies, Performance Optimization

WORK EXPERIENCE

Glassdoor

New York, United States (Remote)

Software Engineer

Jan 2024 - Present

- Collaborated with the development team to enhance internal data tools by focusing on the integration and consumption of Graph APIs for data-driven decision-making. This led to streamlined navigation and redesigned data access workflows, resulting in a 40% decrease in data retrieval time and improved overall user satisfaction ratings.
- Optimized application performance through thorough code optimization and seamless integration of third-party APIs, achieving a 25% increase in application performance and contributing to a more responsive platform.
- Engaged in regular code reviews and collaborative sessions to foster a culture of continuous improvement and technical excellence.

Compliance Easy

NSW, Australia (Remote)

Software Architect

Mar 2024 - Present

- Developed & maintained scalable web applications using Ruby on Rails.
- Led technical decision-making to optimize infrastructure and system design for scalability.
- Collaborated with cross-functional teams to align technology with business goals.

Euphoria XR

Lahore, Pakistan (Onsite)

Senior Software Engineer

Oct 2022 - Mar 2024

- Developed management software for boutique studios as a Full Stack Developer on StudioGrowth, enabling seamless scheduling, payments, and staff management. This effort streamlined operations, leading to a 20% increase in revenue and enhanced customer satisfaction.
- Improved application reliability by resolving bug reports and implementing client-requested features, ensuring overall application performance.
- Led initiatives to refine coding practices and testing protocols, boosting code quality and securing two major client partnerships within six months.

Recurso Labs

Lahore, Pakistan (Onsite)

Software Engineer

Sep 2021 - Oct 2022

- Contributed to the BioMark project for health tracking by implementing advanced features using React and Next.js, significantly enhancing the functionality of the application.
- Provided backend support for SealProperties using Ruby on Rails, which improved application performance and smoothness.
- Optimized CI/CD pipelines and conducted substantial code reviews, resulting in a 50% reduction in time to deployment.

Devsoul Pvt.(Ltd)

Gujranwala, Pakistan(Onsite)

Software Engineer

Oct 2018 - Jul 2021

- Supported the Dexi Hunter application's functionality by developing strong API endpoints for AR developers, enhancing application performance and developer productivity.
- Improved application search efficiency by integrating Elasticsearch and Searchkick, saving time in search processes and boosting user engagement by 25%.
- Achieved a 40% reduction in load time by optimizing database queries and enhancing server performance.

EDUCATION

Gift University
Gujranwala, Punjab, Pakistan
Bachelor's in Computer Science
Jan 2017 - Jan 2021

Technical University Berlin, Germany (Remote)
Ural Federal University Yekaterinburg, Russia (Remote)
Technical Internship (Microservices & Applications Development)
Jun 2020 - Aug 2020
